

# Understanding Call Statuses

## For PhoneTree Patient, Dental and Veterinary Messaging Hardware Purchase Products

**Question:** What do the Call Statuses that appear on my call list and reports mean?

**Answer:** Every member on your call list receives a Call Status before, during and after a call job has finished. Below is a listing of every Call Status and its definition.

### Completed Call Statuses (message delivered)

Ans by Person	Message was delivered to a person
Ans by Machine	Message was delivered to a person's voicemail/answering machine
Ans By +Machine	Message was delivered to a person's voicemail/answering machine
Call Transferred	Person was transferred to a preset extension after pressing "0"
Emailed only	Email message was sent to a person, no call was placed

### Incomplete Call Statuses (PhoneTree will re-call)

BUSY	Busy signal detected on last call attempt
Not Called Yet	Person has not been called yet
Learned Machine	A unique voicemail/answering machine greeting was analyzed and will be retried
No Answer	No answer on last call attempt

### Final Call Statuses (PhoneTree will not re-call)

Hung up early	Call was answered, but responder hung up before message finished
BUSY after Voice	Problem completing call, check for possible issue with phone number
Max No Answers	No answer and/or busy signal detected for all call attempts (up to 8)

### Not Selected Statuses (PhoneTree will not attempt to call)

Removed as Dup*	Person's name and/or phone number appears on the call list more than once *If Combined Family calling is enabled, all persons with the same phone number will have their individual name and appointment information announced within the same call.
Blocked Number	Person is on the PhoneTree Blocked Numbers list
